My Dear Hussain,

Sub: Wheel Disc Failure in LHB Coaches.

As you are aware, there is an alarming trend of wheel disc failures in LHB coaches. From 2015 onwards, there have been 19 reported cases of LHB wheel failures out of which 4 have taken place during the current year itself. This indicates an urgent need for redesigning of wheel disc.

In this regard, EDME/Chg. has already advised ED/Carriage/RDSO to get the LHB wheel redesigned. A letter on this subject was also written by AM/ME, to DG/RDSO on 24.12.2017. However, there is no apparent progress on this front.

In view of the current emergent situation, you may like to personally intervene in the matter for early development of specifications and design of wheel disc through reputed world class manufacturer / designer of wheels.

With best wishes,

Yours sincerely

31/5/18
(Ravindra Gupta)

Shri M. Hussain
Director General
RDSO
Lucknow.
