**Sub: Improvement in 1AC coaches to Swarn Standard**

All Railways have successfully upgraded all the Rajdhani and Shatabdi trains to Swarn standard as per the specification and features detailed in the approved Swarn standards.

It has now been decided that all the 1A coaches on IR should be upgraded to the Swarn standard. Since the number of 1A coaches are very few, Railway should execute this work under revenue.

While upgrading it should be ensured that all 1A coaches are provided with the modified ladder. This work must be completed within three months time. Monthly progress may kindly be sent to Railway Board in this regard.
