Sub: Implementation of online Issue Notes (S-1313) and Imprest Modules of iMMS

Indian Railways is striving for achieving end-to-end digitization of its supply chain. In this quest, the online Issue Notes and online Imprest Modules have been successfully tried in Western Railway and Northern Railway respectively and these functionalities are available for use by all Railways and PUs.

All ZRs/PUs are advised to ensure implementation of these functionalities at the earliest in their respective units. Compliance of the same may be communicated to Board.
